MAYORAL FOREWORD

Welcome to the document “HIV/AIDS Referral Services Directory for the City of Windhoek”. The Namibia Chapter of the Alliance of Mayors and Municipal Leaders in Africa, launched in November 2001, endorsed a Declaration on HIV/AIDS by all Local Authorities in Namibia. This is the political catalyst for Local Government efforts to respond to the impacts of HIV/AIDS in the urban communities in Namibia. You will notice that the Document deals with different plans and strategies that can be useful to address the impact of the epidemic.

In view of its mission to provide effective services to the community, the City of Windhoek has identified the value of the Directory, which lists various HIV/AIDS referral services available in the City. The City of Windhoek has adopted a non-discriminatory policy on the basis of HIV/AIDS that further ensures equal opportunities for all, irrespective of their HIV/AIDS status. This policy is based on the fundamental principles of human rights embodied in the Constitution of the Republic of Namibia, the Labour Act and the National Code on HIV/AIDS.

HIV/AIDS is certainly the scourge of our time and the constant battle to educate the Namibian population about the disease is undoubtedly our only line of defence. However, the main objective of this Document is to assist those in need of support; and to indicate to those infected and affected by this deadly disease that assistance is available, hence, they are not alone. This initiative demonstrates our commitment to the City's core objective to provide basic services to all our residents; and portrays the promotion of good image of the City of Windhoek, within which the residents can take pride.

After extensive consideration and discussion, we believe that we have identified the most important HIV/AIDS guides that those infected or affected by the pandemic would expect to find in this document. The document aims to instil knowledge and understanding of the necessary assistance available to HIV/AIDS sufferers that members of the public need to possess.

The document envisages the collation of information on all HIV/AIDS related services that are available in the City. It provides basic information on HIV/AIDS to encourage status identification and positive living. These include services operated by the Central Government through various Ministries, health facilities, international agencies and development partners. The Directory includes listing of all service providers in both alphabetical order and in categories of service rendered.

I am confident that users will appreciate the content in this important document and will apply it in the management of the killer disease .

Mr. Matheus K. Shikongo
MAYOR
CITY OF WINDHOEK

CITY OF WINDHOEK DECLARATION ON HIV/AIDS

We deserve a closer look

We, the leaders of the City of Windhoek, having taken cognizance of the magnitude of the HIV/AIDS pandemic and its significant impact on our City, join our government and other Local Authorities in Namibia in fighting this pandemic.

Considering that local government, is the level of government closest to the people and therefore well placed to respond to the many challenges posed by HIV/AIDS.

We recognize and support:

Ø The commitment made by His Excellency the President of the Republic of Namibia Dr Sam Shafiishuna Nujoma and the Namibian Government to promote multisectoral action on HIV/AIDS in Namibia.

Ø The ABIDJAN DECLARATION of Mayors and Municipal Leaders of Africa of 9th December 1997, proclaimed in Abidjan, Cote d'Ivoire on the occasion of the 5th International Conference on STDs/AIDS in Africa.

Ø The DECLARATION of The Association for Local Authorities in Namibia of 30th October 2001, proclaimed in Windhoek on the occasion of the Launch of the Namibian Chapter of the Alliance of Mayors and Municipal Leaders on HIV/AIDS in Africa.

Ø The commitments and actions taken by African local authorities, continental and Namibian NGOs and other organisations to promote awareness of the socio-economic effect of HIV/AIDS on our societies and support measures to minimise its impact.

Ø The establishment of the Alliance of Mayors and Municipal Leaders on HIV/AIDS Continental Secretariat in Windhoek, Namibia and contributions made by both the Government of the Republic of Namibia and our support to the Alliance Secretariat.

Ø The full realization of human rights and fundamental freedoms for all is an essential element in an effective response to the HIV/AIDS pandemic, including the areas of prevention, care, support and treatment, and that it reduces vulnerability to HIV/AIDS and prevents stigma and related discrimination against people living with or at risk of HIV/AIDS.

We express our deep concern in the increase in orphans, street children, widows/widowers in our City and acknowledging the impact of HIV/AIDS on sustainable urban development.

We acknowledge that poverty, in all of its manifestations, contributes to the spread of HIV/AIDS is compounding poverty, reversing development gains and compromising the future development of our City.

We are convince of the need for all Local Councils in Namibia to develop and implement policies and strategies appropriate to the specific HIV/AIDS related social, economic, developmental, cultural, human rights and health dimensions in our communities.

We appreciate the assistance and guidance given by the Legal Assistance Center for finalizing our HIV/AIDS Policy.

We take into account all Global, Continental, Regional, National and Local initiatives and affirming our commitment and resolve as the City of Windhoek to the National Strategic Plan on HIV/AIDS (Medium Term Plan 11) and the guidelines for implementation of National code on HIV/AIDS in employment.

We hereby commit ourselves to:

Develop strategies, policies and resources to address the implications of HIV/AIDS for our Management and service delivery agendas:

In endorsing the above we, the leaders of the City of Windhoek, hereby sign this declaration at Windhoek on September 2003.

CITY OF WINDHOEK HIV AND AIDS POLICY

1. INTRODUCTION

HIV/AIDS is a disease that shows no racial, gender or class boundaries. The nature of the pandemic lends itself, however, to discrimination and stigma on the basis of HIV status. This policy will ensure non-discrimination on the basis of HIV/AIDS and will further ensure that the City of Windhoek treats HIV/AIDS in the same way as other comparable life-threatening medical conditions.

The City of Windhoek acknowledges the seriousness of the HIV/AIDS pandemic worldwide and the epidemic in Namibia in particular and seeks to minimize the social, economic and developmental consequences of the epidemic to the City of Windhoek residents and its employees. For this reason, the City of Windhoek believes that it is necessary to set out and adopt a formal policy in this regard.

2. SCOPE

Subject to the provisions of the National Code on HIV/AIDS in Employment and the Labour Act (Act No. 6 of 1992) this policy applies to:

- 2.1 all employees and prospective employees of the City of Windhoek;
- 2.2 all City of Windhoek's workplaces and contracts of employment;
- 2.3 all human resources practice forming part of a policy component of the City of Windhoek.

3. POLICY PRINCIPLES

3.1 This policy is based on the fundamental principles of human rights embodied in the Constitution of the Republic of Namibia, the provisions of the Labour Act, the National Code on HIV/AIDS and is subject to other related legislation dealing with HIV/AIDS.

3.2. The City of Windhoek therefore affirms that:

3.2.1 Protection against stigma and discrimination

- (a) There is an undeniable relationship between a successful public health response to the HIV/AIDS pandemic and the promotion and protection of the rights of people living with HIV/AIDS.
- (b) Employees living with HIV/AIDS have the same rights and obligations as all other employees and the same ethical principles that govern all medical conditions of all employees shall apply equally to employees living with HIV/AIDS.
- (c) Employees living with HIV/AIDS shall not be discriminated against in access to or continued employment as well as in access to training, promotion and employee benefits on the basis of their HIV status and

shall, be protected against such discrimination.

- (d) Both the City of Windhoek and its employees have a mutual and collective responsibility to prevent discrimination on the basis of HIV status in the workplace and employees living with HIV/AIDS shall be protected against victimization, from stigmatization and discrimination by co-workers and management alike. Information and education will be provided to promote and maintain a climate of mutual understanding necessary to ensure this protection.
- (e) Co-workers are expected to continue working relationships with any employee who is living with or is perceived to be living with HIV or AIDS. Co-workers, who refuse to work with, withhold services from, harass or otherwise discriminate against an employee living with or perceived to be living with HIV or AIDS will be subjected to disciplinary procedures in accordance with Council's Industrial Relations Policy.

3.2.2 Job access/recruitment

HIV shall not be a basis for pre-employment testing or for refusing to employ any person. Therefore, there will be no HIV screening of candidates for recruitment and nothing in the pre-employment examination should be considered as obliging any candidate to declare his or her HIV status, except in those instances where the employment conditions of a specific category of staff members in terms of other legislation or amendment to be introduced determines otherwise for example the City Police.

3.2.3 Job status

HIV status shall not be a factor in job status, promotion or transfer. Any changes in job status will be based on existing, criteria of equality of opportunity, merit and capacity to perform the work to a satisfactory standard.

3.2.4 Workplace HIV testing and confidentiality

There shall be no compulsory testing for HIV in the workplace except in those instances where the employment conditions of a specific category of staff members in terms of other legislation or amendment to be introduced determines otherwise for example the City Police.. A suitably qualified person shall undertake voluntary testing for HIV, at the request of the employee and/or the employer and pay for the cost of the 1st testing, in a health facility with the consent of the employee in accordance with normal medical ethical rules and with appropriate pre and post-test counselling. Voluntary testing will be encouraged with a view to assisting employees to make informed decisions about engaging in safer sex and to gain access to medical support and care.

The following procedures and rules shall be adhered to:

- (a) The City of Windhoek shall not, subject to the conditions below, require a prospective employee to be tested for HIV/AIDS prior to commencement of employment or while being employed.

- (b) Any medical examination taken before employment shall not include an HIV test as an obligatory part of the examination.
- (c) A medical test shall solely be used to determine the prospective employee's functional performance and to offer prognosis on the capacity and fitness to perform the designated task as part of the work at the time of employment.
- (d) Where testing is done at the request or initiative of the employees this will be done with his or her informed written consent and accompanied by pre-and post-test counseling.
- (e) The employer shall ensure the confidentiality of any request for HIV testing by an employee and of any request for HIV testing by an employee and of the subsequent results.
- (f) The City of Windhoek acknowledges that denying an employee or prospective employee employment or promotion on account of his or her HIV status may be construed as unfair discrimination in terms of section 107 (1) (a) of the Labour Act.
- (g) Where any testing of the employees to ascertain the HIV status of the City of Windhoek is to take place at the request of the organisation, the organisation shall ensure that the testing will be done on an anonymous basis.
- (i) Employees and prospective employees with HIV/AIDS have the legal right to confidentiality about their HIV status in any aspect of their employment. This applies to Occupational health practitioners under contract to the City of Windhoek, pension fund trustees and any other personnel who come into possession of such information in whatsoever manner. To disclose the HIV status of an employee without his or her informed consent shall constitute a disciplinary offence. An employee is under no obligation to inform the City of Windhoek of his/her HIV status.
- (j) The City of Windhoek maintains an "open door" policy. Employees living with or affected by HIV or AIDS, and those who have any related concerns, are encouraged to contact the Councilor, their team leader or the Occupational Health and Safety personnel to discuss their concerns and obtain information. Any such communications will be treated confidentially.
- (k) The provisions of this clause shall be adapted mutatis mutandis in those instances where the employment conditions of a specific category of staff members in terms of other legislation or amendment, to be in line with such legislation for such category of staff members.

3.2.5 Managing illness and job security

- (a) No employee shall be dismissed on the basis of HIV/AIDS status, nor should HIV/AIDS status influence retrenchment procedures.

- (b) Employees with HIV/AIDS related illness shall have access to medical treatment as provided by their Medical funds and should be entitled, without discrimination, to agreed existing sick leave provisions.
- (c) Employees living with HIV/AIDS should continue to work under normal conditions in their current employment for as long as they are medically fit to do so. When on medical grounds they cannot continue with normal employment, efforts shall be made to offer them alternative employment without prejudice to their benefits. When an employee becomes too ill to perform his/her agreed functions, standard procedures for termination of service for comparable life - threatening conditions should apply without discrimination.

3.2.6 Occupational benefits

- (a) The City of Windhoek and the Recognised Trade Union shall ensure that occupational benefits depending on laid down terms and conditions, including medical aid, are non-discriminatory and sustainable and provide standard benefits as agreed with to all employees regardless of their HIV/AIDS status.
- (b) Information from benefits schemes on the medical status of an employee shall be kept confidential and shall not be used by the City of Windhoek to affect any other aspect of the employment contract or relationship.
- (c) Counseling and advisory services shall be made available to all employees on their rights and benefits from medical aid, pension and social security funds. This shall include information on intended changes to the structure, benefits and premiums to these funds.

3.2.7 Risk management, first aid and injury on duty

- (a) The City of Windhoek shall ensure a safe and healthy working environment for all employees, including the provision of the necessary protective equipment and the implementation of and training in the implementation of proven precautions to prevent transmission of the virus in the workplace.
- (b) Where an employee accidentally contracts HIV/AIDS in the course and scope of his or her employment, he or she shall be entitled to employee's compensation in accordance with the provisions of the Employee's Compensation Act and shall be required to follow the normal injury on duty procedures

4. HIV/AIDS AND SEXUAL TRANSMITTED DISEASES INTERVENTION PROGRAMME IN THE WORKPLACE

- 4.1 Responsibility for the proper implementation, monitoring and review of this policy as well as of the HIV/AIDS and STD programme in the workplace shall be the responsibility of the Occupational Health and Safety Division.
- 4.2 The HIV/AIDS taskforce shall design and implement an appropriate HIV/AIDS and STD education and awareness programme for the workplace

in consultation with and aimed at all levels and categories of employees, which shall include:

- 4.2.1 Comprehensive information about HIV/AIDS, how it is spread and how it can be prevented.
- 4.2.2 The promotion of non-discriminatory, supportive and sensitive attitudes towards people living with HIV/AIDS.
- 4.2.3 Information on alcohol and drug abuse and its direct impact on HIV transmission. Education programmes should aim at discouraging drug use and alcohol abuse and promoting the social rehabilitation of those who abuse such substances.
- 4.2.4 Information on condom use and other safer sexual practices and the provision of condoms in the workplace.
- 4.2.5 Information on the precautions necessary for attending to injured and bleeding personnel and the provision of accessible disposable gloves, aprons and bleach at strategic places in the workplace.
- 4.2.6 Information on the safe handling of medical waste.
- 4.3 The Health and Safety Division shall, in addition:
 - 4.3.1 Administer, monitor and evaluate HIV/AIDS and STD programmes in the workplace, train key personnel about HIV/AIDS and STD's and the proper management of employees affected by the disease.
 - 4.3.2 Initiate the introduction of HIV/AIDS programmes into City of Windhoek services, sports and other recreational centers.
 - 4.3.3 Ensure that sufficient resources are made available to introduce measures designed to prevent the spread of HIV/AIDS and STD in the workplace.
 - 4.3.4 Advise management regarding programme implementation and progress.
 - 4.3.5 Liaise with local AIDS service organisations and other resources in the community to explore means of making a broader range of services and support available to employees and residents.

5. CRITERIA FOR AN HIV/AIDS INTERVENTION PROGRAMME

In the event where the City of Windhoek decides on the outsourcing of all or some of the elements of a program of intervention, the program shall meet the following main criteria:

- 5.1 It shall be provided by an outsource contractor capable of creating and maintaining a confidential environment trusted by the employees to encourage voluntary HIV testing.
- 5.2 All members of the executive leadership, management and staff shall participate in the program to remove stigmatization.
- 5.3 It shall be payable as per agreed terms and conditions.

- 5.4 It shall contain treatment, disease management, counseling, educational, training and coaching elements.
- 5.5 It shall contain information on alcohol and drug abuse and its direct impact on HIV transmission. Education programs should aim at discouraging drug use and alcohol abuse and promoting the social rehabilitation of those who abuse such substances.
- 5.6 It shall include the provision of condoms and education on condom use.
- 5.7 Service delivery shall be measurable against predetermined goals and benchmarks to prevent exploitation by service providers.

6. **RESPONSIBILITY**

- 6.1 The City of Windhoek is committed to maintaining a safe and healthy work environment for all employees and for the development and implementation of this HIV/AIDS Policy.
- 6.2 All employees will be held responsible and accountable for complying with this policy. HIV/AIDS programmes will take place during working hours and employees will be encouraged to attend and participate in such programmes.
- 6.3 All managers shall be responsible for the implementation of this policy, ensuring compliance with and knowledge about its provisions and for taking immediate and appropriate corrective action where provisions of the policy are not complied. Managers shall open and maintain appropriate communication channels to enable employees to raise concerns and grievances concerning HIV/AIDS and STD's. Managers are encouraged to attend HIV/AIDS programmes in the workplace and to lend visible support to these programmes.

7. **PLANNING**

- 7.1 The City of Windhoek commits itself to promoting an understanding of the HIV/AIDS epidemic in all planning processes.
- 7.2 The City of Windhoek shall collect, compile and analyse data on HIV/AIDS to monitor the success of workplace HIV/AIDS prevention and care programmes in order to plan for necessary resources and to make provision for adjustments that may be required in future.

8. **BUDGET/FUNDING**

The City of Windhoek commits itself, subject to the exigencies of the service, and due regard to its financial means and existing obligations, make adequate provision in its budget for the effective implementation of all aspects of HIV/AIDS and STD intervention programs in the workplace including the costs of education and training, the provision of appropriate media materials, the securing of expert advice, the popularizing of condoms the raising of awareness and the provision of adequate appropriate support services for employees living with or affected by HIV/AIDS.

9. INTERACTION WITH CIVIL SOCIETY AND OTHER LOCAL AUTHORITIES

9.1 The City of Windhoek commits itself to:

9.1.1 The establishment of effective partnerships with Government, NGO's and other community based organisations to co-ordinate and combine efforts in addressing all aspects of HIV/AIDS in the workplace.

9.1.2 Interacting with other local authorities to share experiences and knowledge in effectively and appropriately responding to HIV/AIDS in the workplace and to ensure that the HIV/AIDS epidemic is dealt with in a co-ordinated and united fashion.

9.1.3 It shall be the responsibility of the Occupational Health and Safety Division to work in close collaboration with the Regional AIDS Committee and to give regular feedback to Council.

10. GRIEVANCE HANDLING

Standard grievance handling procedures in accordance with the Council's Industrial Relations Policy and Procedures shall apply to HIV-related grievances. Personnel dealing with HIV-related grievances shall protect the confidentiality of the employee's medical information.

11. MONITORING AND REVIEW

The HIV/AIDS epidemic is continually evolving and various aspects of the epidemic may change from time to time as scientific and medical knowledge of the epidemic progresses. These changes may necessitate changes in this policy and the policy should accordingly be reviewed on an annual basis. Responsibility for monitoring and review of this policy and its implementation shall lie with the Human Resources & Administration Department (Occupational Health and Safety Division).

FACTS ON HIV AND AIDS

Facts and HIV and Aids

- Ø HIV - Human Immuno-deficiency Virus - is the virus that causes AIDS. It is found in body fluids i.e. blood, semen, vaginal fluids and breast milk
- Ø HIV lowers the body defensive system (immune system) making it prone / easy for other infections to attack the body i.e. TB, Pneumonia, Skin infections and Chronic diarrhoea
- Ø AIDS - Acquired Immune Deficiency Virus - is when the body's defence system against diseases is completely damaged

Modes of transmission

- Ø Having unprotected sex with an HIV infected person
- Ø Mother to child transmission, during pregnancy, during labour, or by breast feeding
- Ø Being transfused with HIV infected blood
- Ø Sharing sharp objects which contain HIV infected blood e.g. syringes and blades

You cannot get HIV infection by

- Ø Shaking hands
- Ø Eating food from the same plate, sharing a cup, cutlery or crockery
- Ø Showing affection by hugging
- Ø From a mosquito or any insect bite
- Ø Using the same bathroom or latrine
- Ø Sharing a bed or sitting next to a HIV + person
- Ø Working with a HIV+ person

Living positively with HIV and AIDS

Get regular counselling from a professional counsellor who will help you come to terms with your status

Take care of your health by:

- Getting treatment for any signs or symptoms of infections or ill health as soon as they occur
- Eat a healthy and affordable, balanced diet everyday and snack on fruit and vegetables whenever you feel hungry. A balanced diet consists of proteins and fats e.g. meat, milk, fish, cheese and eggs, nuts, seeds and avocados; these are body building foods. A balanced diet consists of carbohydrates e.g. pap, porridge, mahangu, potatoes, rice, pasta and bread; these are energy giving foods for the body. It also consists of vitamins e.g. spinach, carrots, onions, garlic and cabbage; these foods can protect the body against infections and gives it vitality

- Exercise your body regularly by walking, cycling and swimming. Consult your doctor who will advise you if this is possible or not and also on the type of exercise you should do
- Get enough sleep at night or during the day depending on your job schedule and rest every time you feel tired.
- Do not drink alcohol, smoke cigarettes, or take harmful drugs

Join a "People living with HIV / AIDS support group" where you can find true understanding among people undergoing similar feelings and experiences.

Practice safe / protected sex. Use a condom correctly and every time you have sex. This will prevent you from being re-infected, which would break down your defence system further. It will also prevent the spread of HIV to another person.

You can also choose to abstain from sex.

If you feel strong and healthy continue to do your usual work.

Learn to accept your status as this is not going to reverse.

Enhance your spiritual life.
